T Slated by: MOS Finance Team – Atlas

According to the Immigration Department, there were 426 applications for withdrawal of Communist China nationality in Hong Kong last year, up 42% from 299 the year before, and the number of applications for change of nationality rose from 209 the year before to 322, an increase of 59%. 

The CCP's dictatorship of Hong Kong has triggered a wave of emigration of Hong Kong residents. According to the Hong Kong Government's population figures, there will be a net emigration of 27,300 Hong Kong residents in 2021, not including the large number of Hong Kong people who have obtained residence permits in various countries. It is reported that as of January 31 of this year, the BN(O) visa program has been opened to 8,000 applicants, while a total of 11,173 Hong Kong residents will be granted residence permits in Taiwan in 2021. With Hong Kong falling into the clutches of the CCP, it has lost its appeal and renunciation of Chinese Communist nationality is an inevitable trend.

During the atrocities of the CCP's Cultural Revolution in the 1960s, a large number of mainland compatriots risked their lives to swim to Hong Kong, and since Hong Kong is controlled by the evil CCP, a large number of Hong Kong people are scattered overseas. Under the CCP virus and the tyranny of the Hong Kong Government, there is no condition to immigrate to Hong Kong. People would rather go north to escape this terrifying place, and some compatriots on WeChat lament that the wind and water are turning; but the great flight from Hong Kong today is a testament to the complete failure of the CCP regime's dictatorship of Hong Kong, and the flight the Hong Kong people who fled were wise to do so; the CCP is the criminal regime that is to be destroyed internationally.
